

# Focuz Your Solutions to Outsource Manufacturing Biomedical & Healthcare

FOCUZ PROVIDES ADVANCED EMS & ODM MANUFACTURING SERVICES  
DESIGN SUPPORT, PROTOTYPING, PRODUCTION, FUNCTIONAL TESTING, BURN IN,  
FOR SMALL AND LARGE VOLUME

Product Know-How: Computed Tomography and X-Ray Equipment  
1) Ultra Sound, Analysis-/Dialysis Equipment, medical sensors and imaging sensors  
2) Therapy Equipment, Endoscopes, medical probes and sensing fibers, etc.

## Key Expertise for

- Hybrid assemblies & packaging of Lasers (VCSEL, DFB etc.)
- Lasers, Photodiodes, image sensors, LIDAR, Sensors, Wearables, etc.
- High Precision Die Attachment and Wire Bonding, better than +/-1 $\mu$ m
- Fiber Optic, Optical Assemblies, PCBA and Box Build
- Microwave subassemblies etc. wafer dicing
- All package types: 01005 passive  $\mu$ BGA, CSP, COB, Flip Chip, TO-Can etc.
- Focuz provides drop shipments worldwide, supply chain management
- **ALL medical products manufactured acc ISO 13485 and relevant standards**

## About Focuz

- + Focuz is based in Thailand and member of the Far East Trade agreement and of the Asia Pacific pact.
- + There are no sanctions from US due to 100% "NON-China" manufacturing and all products tax free.
- + Markets: Industrial, Biomedical & Healthcare, Datacom, Automotive
